

## Amendment

Court Case No

Dear Judge Robinson 05-624-SLR

My amendment is further on and Mrs. Sheldon, a nurse for C.M.B. Services, who ON several times has insulted me with accusations of not taking my meds and has even gone as far as to ask me more than once to take out my false teeth so that she can check my mouth, to make sure that I have taken my meds.

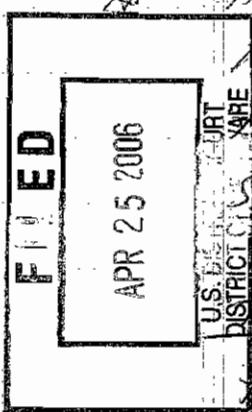

I have never given any indications as to the fact that I didn't take my meds or have ever been caught of not taking them to save who hardships in this matter.

Also I have been denied meds due to the fact that I had Bible College, and was even taken down to the infirmary on the night in question by staff and was return by the nurses on duty.

I have put in grievances but I have yet to get any response from them.

I have even been told by Sgt Moody the Infirmary, Good Luck?

At this time I'm waiting to be release from Fender Hill, that I can go home, get on my computer, and type up better affidavits and summaries and have access to the public library in town to better prepare for my case.

Dear Judge Robinson

As of now I fear for my well being, today is 4-22-06 and the time is 2pm, I just had a encounter with a Lt Pettree whom came on the pod, single my cell out and took up my seabiscuit Snack, because I have a sugar problem, AND took the headphones off my TV and gave me a Class two write up, because I had a Stirriform cap on them to make the sound better.

What they will probbly do now is put me in the hole and take away my good time.

NO body has ever gotten a write up the bad for something so small as this.

I only hope that you receive this letter and some how put a stop to this retaliatory action that they are doing to me at this time.

I'm suppose to go on level 4 time in two weeks, I need to get out of here, before they find away to something worse to me.

Sincerely Yours
